

## **SANDWIDI JEAN WILFRIED**

Phone : +226 70678978 / 76735586

Email : jwillsand@gmail.com

Address : 477, rue 28.09 secteur 43 (ex 28) Dassasgho (Ouagadougou)

### **EXPLORATION GEOLOGIST**

**LANGUAGE : WELL IN FRENCH AND FAIRLY WELL IN ENGLISH**

**(8 YEARS EXPERIENCE IN MINERAL EXPLORATION)**

### **ACADEMIC DIPLOMAS**

**2010** : Master in Fundamental and Applied Geology, University of Ouagadougou, Burkina Faso

**2009** : Bachelor in Fundamental and Applied Geology, University of Ouagadougou, Burkina Faso

### **TECHNICAL KNOWLEDGE**

- Soil, rock and stream sampling including MMI Geochem
- Regolith and lithostructural mapping
- Pits and trenches sampling and mapping
- Auger, AC, RC and Diamond drilling
- Logging ships and core, sections interpretation
- RQD, magnetic susceptibility and density on core
- Tectonic structures measurement on core.

### **PROFESSIONAL EXPERIENCES**

**Since May 2018 : Geologist at BMC (Youga)**

- Trench studies.
- Core logging and tectonic structures measurement.
- Lithostructural and artisanal working areas mapping.

**November 2017-April 2018 : Consultant Geologist at GEORECO (Geological Research Consulting)**

I supervised the Auger drilling on SOMITA Gold mine and near-mine prospects for additional resources (NordGold Company, Burkina Faso).

**March 2014-October 2017 : Freelance Exploration Geologist**

I worked for several companies and on various projects :

- COMIGOLD SA : Soil sampling, Geological and Regolith mapping on Badiere permit.
- Construction et Exploitation Burkina SA : Supervising of RC and RGAB drilling on Dim permit.
- Acacia Mining : Soil sampling on Gaoua permits (Soukoura and, Sokorani).
- Gisement Minier Victoria (GMV) : Geological mapping on Boukolou permit, pitting and ground geophysical surveys on Dim permit, MMI Geochem on Dim, Yendere and Boukolou the permits.
- Assistance to the companies looking for prospective permits, and facilitating the communication and relationship with geological and mining institutions in Burkina Faso.
- Etc.

## **July 2011-August 2013 : Geologist at SEMS Exploration**

I worked for several companies and on various projects:

- DCB (Diamond Cement Burkina) : RC drilling on Tibari and Ouessa gold permits.
- Monteray Mining Group : MMI Geochem, RC and AC drilling on Tigan and Pepin gold permits.
- Rumble Ressources : Soil sampling and Auger drilling on the gold permits of Bompela and Sapala.
- Harmattan Gold : Trenches description, sampling and mapping.
- Pan African Minerals : RC and Diamond drilling on manganese project of Tambao.
- South Shore Group : Soil sampling on the gold permits of Mourdeni, Sankora and Tyegana.
- West Africa Gold (WAG) : Soil sampling, Trenches description, sampling and mapping on Samba, Darkou, Faka and Koutakou gold projects.
- Vital Metals : Geological mapping on Tiebele gold project.
- Burey Gold SA : Soil sampling on two gold projects in Guinea.

## **MISCELLANEOUS**

Knowledge : MapInfo, ArcGIS, Datamine, Word, Excel, PowerPoint, etc.

Languages : French fluently

English intermediate

Spare time : Football, Athletics

## **REFERENCE PERSON**

Dr ILBOUDO Herman

Senior Exploration Geologist

Lecturer at University of Ouagadougou

Tel. : +226 70 69 18 58 / 76 42 83 26

Dr Nestor HOUSSOU

Senior Exploration and Mining Geologist

General Manager of GeoReCo

Tel. : +225 58834611 / +226 79379445

Email : nestor.houssou@gmail.com

*I certify in all conscience that the above information is sincere and truthful.*
